What is the TETECOU network?

The TETECOU French Rare Disease Network (*Filière de Santé Maladies Rares*) is a national network accredited by the French Ministries of Health and Research.

Our main missions are:

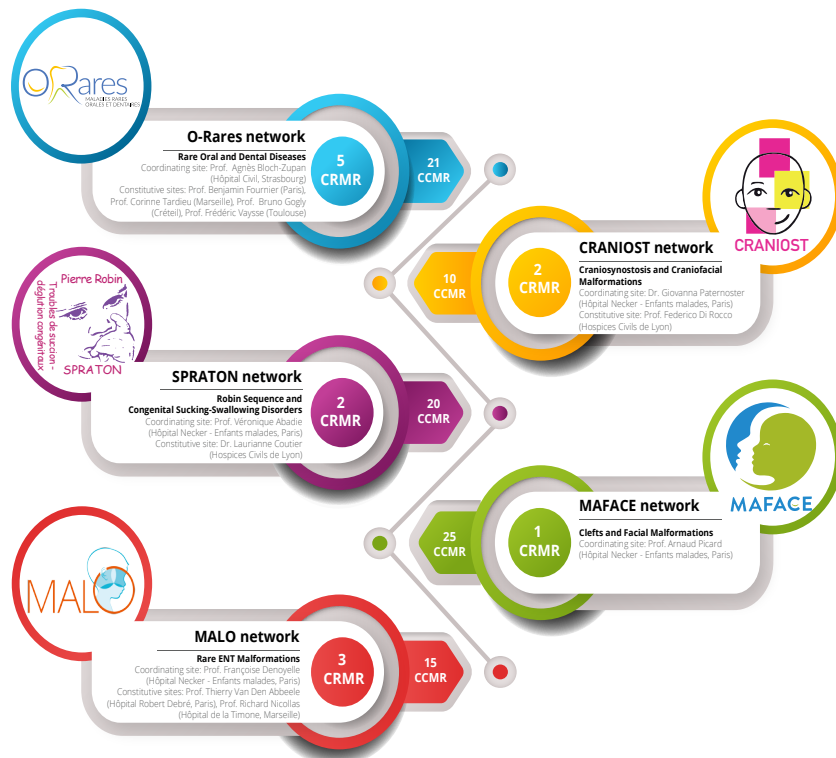

Improve care pathways

Develop training and share information

Drive research

Foster European and International collaborations

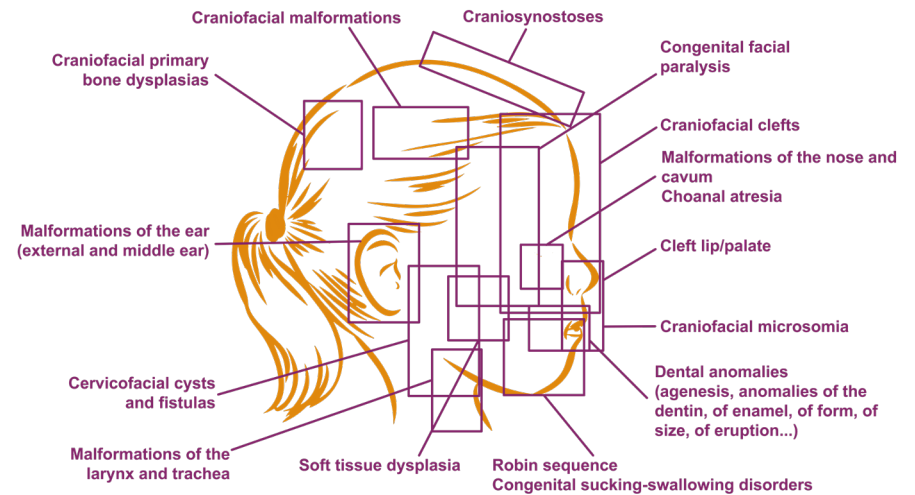

The 5 specialized care networks

CRM: Rare Disease Reference Center (*Centre de Référence Maladies Rares*)
CCM: Rare Disease Competence Center (*Centre de Compétence Maladies Rares*)

A wide range of conditions

More than 2 100 conditions covered by our network

Learn more at www.tete-cou.fr/en/diseases

36 patient organizations
